*Situated in a charming garden setting, the
Teahouse Garden patio is open daily May to September
(weather permitting)*

We also provide a unique setting for Bridal and Baby Showers

*Local products are used daily in our restaurant, including fresh herbs and tomatoes
from our own backyard garden (when available).*

The Teahouse History

*Christopher Dent built the house for his bride-to-be Eva in 1906.
In the 1950's Calvert M. Carruthers owned the farm and farmhouse. He allowed
The Red Cross to house Hungarian refugees there after the Communist takeover of their country.
Some of the former refugees still come to see the house. The DeGroot family bought the farm in
1980 to expand their nursery and greenhouse. The Teahouse is only partially visible from the
road, located directly behind DeGroot's Nurseries. Customers must walk through
the nursery to get to the Teahouse.*
