Situated in a charming garden setting, the Teahouse Garden patio is open daily May to September (weather permitting)

We also provide a unique place for bridal or baby showers. Evening and Sunday bookings are available for private functions.

Local products are used daily in our restaurant, including fresh herbs and tomatoes from our own backyard garden (when available).

The Teahouse History

Christopher Dent built the house for his bride-to-be Eva in 1906. In the 1950's Calvert M. Carruthers owned the farm and farmhouse. He allowed The Red Cross to house Hungarian refugees there after the Communist takeover of their country. Some of the former refugees still come to see the house. The DeGroot family bought the farm in 1980 to expand their nursery and greenhouse. The Teahouse is only partially visible from the road, located directly behind DeGroot's Nurseries. Customers must walk through the nursery to get to the Teahouse.
